Data Analytics Engineer | Data Engineer

I am a service-minded, flexible and curious problem solver who can master new abilities and adjust to new environments. I have mastered time-series and time-related statistical and machine learning models. I am service-minded and can effectively provide data analysis, solutions and insights for the business needs. I leverage my experience in production environment, can-do attitude and fast learning capabilities to adapt to any environment, produce tailor-made solutions with high quality standards, and deliver results in a timely manner. I have a strong foundation in data science, machine learning, econometrics and statistical modelling which I apply to solve complex problems.

Technical Skills

Soft Skills

Experience

DATA ANALYTIC ENGINEERING

Self-Employed | Consultant

offer an extensive range of data engineering, analytics, and business intelligence services tailored to your needs. With a focus on spatial data, urban environments, and the complexities of the built environment, I ensure that my expertise translates into actionable insights.

Specialising in ETL/ELT processes, I adeptly parse and process diverse data types, presenting results that are not only clear but also aligned with your objectives.

Apex-Heat, Optimisation Project

Aalto University Full-time – Espoo, Finland

Jan 2025 – Present |

Part-time – Espoo, Finland

- Resolving **technical debt**. Improving the efficiency of the data pipelines.
- Migrating from **Pandas** to **Polars** to improve the efficiency and calculation time.
- Improving the design pattern, and **writing documentations**.
- Adjusting and improving data processing test coverage and **testing** methods.
- **Optimising** the SQL queries to improve response time.
- Resolving the technical debt in the data pipeline codebase.

Apex-Heat, Building Database

Aalto University Full-time – Espoo, Finland

Dec 2025 – Present

- Acquiring and processing building data from Finland
- Modelling and enhancing the building data models in the pipeline
- Expanding data coverage to include additional countries (Sweden, Norway, Netherlands)
- Designing and implementing connection to Finnish building data API (Ryhti)

Ph.D. Candidate
Aalto University Sep 2020 – Present
Full-time – Espoo, Finland

- Deploying and maintaining **AZURE functions** to store real estate data for research by scanning and scrapping websites for property advertisements.
- Designing data-pipelines for local AI to extract features from text and structured data.
- Applying Econometric, ML, time-series and data analysis for **quantitative research**.
- Processing HTML and PDF files and implementing **RAG** to extract structured data from the land use plan documents.
- Preparing and updating **visualisations** for lecture and presentation.
- ETL/ELT processes with data stewardship duties to acquire, maintain and provide research data.
- Self-taught programming skills, and further obtained formal education in data science.

Research assistant
Aalto University Jun 2019 – Sep 2019
Full-time – Espoo, Finland

- Working on an **Agent Based Modelling (ABM)** solution to simulate parking pressure in Otaniemi campus area.
- Collaborating MIT CityLab project on agent based modelling simulation.
- Implementing simulations in GAMA Platform

Data Analytics Engineer
Qissa kaupunkisuunnitteluanalytiikka Oy – Startup Sep 2020 – Dec 2024
Part-time – Espoo, Finland

- Designing data pipeline to gather data from REST APIs, cleaning, **Geo-coding** and storing in accordance to the specifications requested by clients
- Creating **Spatial data** dashboard for spatial network analysis back-end. The analysis used HSL, HERE and HSY APIs to gather and process the data and perform **spatial network analysis**.
- Extracted, processed and served sensus data from US, Denmark, Sweden and Finland for calculating CO₂ emission from commuting.

Planning Assistant
WSP Finland Oy Nov 2018 – Jun 2021
Part-time – Helsinki, Finland

- Performing **Spatial Data analysis**, Processing and storing spatial.
- Performing network analysis for pedestrian route choice forecast. The analysis was fine tuned to existing situation, and then used to forecast pedestrian flow after urban development
- Preparing analysis, graphs, maps and data **visualisations** for stakeholders, projects managers and clients.
- Providing **GIS analysis** to transport engineers, landscape designers, urban planners and architects.
- Setting up ArcGIS Online platforms for **maritime** planning.
- Programming and producing dynamic 3D model of the cities using ESRI CityEngine

GIS Operator
University of Tehran Aug 2015 – May 2016
Part-time, Tehran, Iran

- Gathering, processing and preparing GIS data for urban designers to implement and test new directives for urban design in Tehran City

Chief Operating Officer
Airsa Dorsa Industries Aug 2011 – Aug 2018
Full-time, Karaj, Iran

- **Accounting**, cost calculation, financial analysis, human resources and BI
- Provided in house **graphic design**, CAD and technical solutions for clients.
- Negotiating with the clients regarding their designs, pricing and production.
- Managing timelines of production, maintenance and order delivery.
- Auditing, accounting, process and inventory management.
- Admin duties, supervision duties, high-frequency welding, silk screen printing.

Education

Aalto University <i>Doctor of Philosophy in Technology, Real Estate Economics</i>	Espoo, Finland Sep 2020 - Present
Aalto University <i>MSc. (Tech.) Urban Studies and Planning in Real Estate Economic</i> GPA: 4.1/5, Graduated with honours	Espoo, Finland Sep 2018 - Jul 2020
University of Tehran <i>BA. Town Planning</i> GPA: 16.67/20, Academic excellence	Tehran, Iran Sep 2011 - Jun 2015

Machine Learning | Statistical models | Econometrics

Uni-variate time-series: ●●●	VAR time-series: ●●●	Co-integration time-series: ●●
multi-variate time-series: ●●●	OLS: ●●●●●	IV-OLS: ●●●●
Panel data: ●●●●	Generalised Method of Moments: ●●●●	Generalised linear models: ●●
Spatial econometrics: ●●●●	Survival/time-to-event: ●●●●●	Additive hazard models: ●●●●●

Volunteer Work

- DataTribe collective moderator, contributor
- DataTribe collective speaker: Spatial data analysis, spatial data engineering
- Helsinki Data Week volunteer (2024 & 2025), contributor
