

Cover Letter

Dear Citycon Team,

I am writing to express my interest in the opportunity at Citycon. Currently based in Espoo, I serve as a data specialist and am a PhD candidate at Aalto University. Over the past several years, I have developed robust data pipelines and reporting systems that assist researchers in transforming complex datasets into meaningful analyses, insights, and valuable research outcomes.

I am a team player, service-oriented, and a dedicated problem solver. During my time at WSP Finland and within the Aalto real estate research team, I collaborated closely with various experts, ensured clear communication, and delivered readily applicable analyses, visualizations, and econometric assessments.

What particularly excites me about Citycon is the potential to apply my data expertise to property analytics and reporting. I am keen to leverage my academic knowledge of real estate within the industry while learning from the perspectives of practitioners.

Having lived in Finland for eight years, I am fully settled and do not require any relocation or permit arrangements. I would welcome the opportunity to discuss how my technical background and problem-solving mindset could contribute to Citycon's mission.

Thank you for considering my application.

Terveisin,

Babäk Firoozi Fooladi
